

6W IQ Smart Downlight

The Smartest Lamp in the World

Led lighting offers terrific advantages over conventional lighting. The problem to date has been that most LED lights will not work on existing halogen transformers and will not dim. That problem has now been solved with the introduction of the littil IQ Smart Lamp.

Features & Benefits

- Designed & Engineered in Australia
- Designed to work on existing transformers & dimmers
- Contains 15w BridgeLux COB LED tuned down to 6w's
